Clarke, Walker Issue Update on O'Donnell Parking Structure

Milwaukee, WI: Milwaukee County Sheriff David A. Clarke Jr. and Milwaukee County Executive Scott Walker are advising that the investigation regarding the incident at the O'Donnell Parking structure continues.

Currently, the O'Donnell parking structure **remains closed**. Fencing has been placed around the entire parking garage to contain the scene and ensure the safety of pedestrians. Tomorrow morning, Tuesday, June 29, a piece of the parking structure will be removed for the use in this ongoing investigation. Structural engineers from Milwaukee County, as well as engineers from the firm, *INSPEC*, will be on-site when *Belfor Property Restoration* and *Litgen Concrete Cutting* cut the parapet section from the structure. *Price Erecting* will perform the crane lift of the sections to be removed tomorrow. Investigators from the Sheriff's Office and District Attorney's Office will also be on-site during the removal of the parapet section.

Please note:

- The staircase (on top of the garage) from Wisconsin Avenue to Lincoln Memorial Drive is closed for pedestrian use
- The "upper garden area" located on top of the parking structure is closed
- The Betty Brinn Children's Museum and Coast Restaurant remain open

As more information becomes available that doesn't jeopardize the integrity of the investigation, news outlets will be notified.
